-

WEDNESDAY, 10 JULY 2013 - OVERVIEW OF INTERNET GOVERNANCE

0900 – 0930 **SESSION 0: Interactive introductory session**

Introduction to the program. The schedule, setting up student report groups, and other administrative issues.

Facilitators: Anriette Esterhuysen and Towela Nyirenda-Jere

09:30 – 10:30 **SESSION 1: EXERCISE: What is IG and what have you always wanted to know about it?**

Scope: How does 'internet governance' relate to internet access, internet content, internet use, internet domain names and numbers and internet security? In this session participants will write “what I have always wanted to know about IG” questions on sticky notes. The assumption is that even people who are very familiar with IG, or a part of it, will have some questions that they would like to have answered. These questions will be clustered and mapped on the wall, and, where possible, assigned to one of the sessions over the next three days.

Facilitators: Avri Doria and Emilar Vushe

10:30 – 11:00 Tea/Coffee Break

11:00 – 12:00 **SESSION 2: Mapping IG institutions – Interactive mapping session**

Scope: Interactive session looking at various IG institutions, roles and responsibilities as well as an overview of **The Tunis Agenda** and why we are still talking about it. n

Facilitators: Anriette Esterhuysen and Towela Nyirenda-Jere

12:00 – 13:00 **SESSION 3: Introduction of student projects**

Scope: Introduction of student projects which need to be completed by 21:00 Thursday so that they can be presented during the evening session. Students will be divided into 5 separate groups. Wednesday evening after 18:00 is left open for group work on the projects.

Facilitators: Nnenna Nwakanma and Avri Doria

13:00 – 14:00 Lunch

14:00 – 15:30 **SESSION 4: Internet address management**

Scope: Overview followed by presentation of specific cases. Include discussions on RIR policy making, IPv4 issues, IPv6 issues, IP address coexistence, (re)distribution of unused IPv4 addresses, AS numbers

Facilitator: Timothy McGinnis

15:30 – 16:00 Break

16:00-17:30 **SESSION 6: IG issues in Africa**

Scope: Open discussion on IG institutions, processes and issues in Africa at regional and national level from the perspective of different stakeholder groups.

Facilitators: Towela Nyirenda-Jere and Mike Jensen

EVENING: Students work on projects

THURSDAY, 11 JULY 2013 – HISTORY OF IG AND IG MANAGEMENT

09:00 – 10:30 **SESSION 7: History of internet governance**

Scope: Historical and big picture political perspective on internet governance.

Facilitator: Prof. Wolfgang Kleinwachter

10:30 – 11:00 Break

11:00 – 12:30: **SESSION 8: Internet name management**

Scope: Overview followed by presentation of specific cases.

Case presentations:

- ICANN, Pierre Dandjinou
- The South African ccTLD and .coza, Calvin Browne, Uniforum
- .info – Afiliac – Desiree Miloshevic

Facilitators: Grace Githaiga and Alex Comminos

13:00 – 14:00 Lunch

14:00 – 15:30 SESSION 9: Internet governance – A holistic approach

Scope: Referring to the questions from SESSION 1 Dr. Bill Drake will introduce a 'holistic' approach to IG and the IG ecosystem. This will include looking at global, regional and national dimensions.

Faciliator: Dr. Bill Drake

15:30-16:00 Coffee/Tea break

1600 – 17:30 SESSION 10: EXCERCISE: Multistakeholder Issues: IGF, ICANN, ITU and the CSTD WGEC (Working Group on Enhanced Cooperation) Questionnaire

Scope: A moderated discussion that walks through the issues before WGEC while attendees are still in the position to then go home and work with their communities to fill out the questionnaire.

Facilitators: Avri Doria and Anriette Esterhuysen

21:00 – 22:30 Presentations by the students (8 minutes per presentation for each of 5 groups followed by 7 minutes Q &A)

Facilitators: Wolfgang Kleinwachter, Nnenna Nwakanma and Avri Doria

FRIDAY, 12 JULY 2013 - HUMAN RIGHTS AND MULTI-STAKEHOLDER MODELS

09:00 – 11:00 SESSION 11: Internet governance and human rights

Scope: Overview of human rights and internet governance issues followed by a focus on the role of internet intermediaries and presentation of a specific cases.

- Censorship and filtering and the risk of fragmentating the internet
- Data retention and the role of internet intermediaries with a focus on recent African research
